In Mexico since 1971

May 2022

The walls are up and we are ready for the roof. A lot of work for preparation has to be done. Support beams will stretch across the roof. Construction plywood will be put up and support poles will be used to hold it up. Construction Styrofoam will be placed on top and then cement will be pored on top of it. It will take at least two weeks to dry and harden.

We estimate that it will take about \$3000.00 to install the roof. However, material increases on a daily basis.

The contractor attends our church with his wife who is a member. His name is Phillip, on the second Sunday morning in April at alter call Phillip trusted Christ as his savior.

We have a lot of work to do this summer. We thank you for your prayers, for your financial support, and for your confidence in our ministry.

Several of you have asked for prayer cards and pictures. I will have to have them printed please hang in there with me. I will get them to you as soon as possible.

For Souls in Mexico
