## News Update

May 25, 2022

Dear Friends,

In the midst of difficult times, God, as always, has met us with comforting grace and wonderful provisions of loving care. **How we love to tell of His works!**

As you know, we began this year with many **challenges**: First, we recovered from **COVID**, only to need to take turns traveling to Arizona to help care for our **son's family**, as he was bedridden by serious illness. Next, **Dorothy** was struck with the sudden onset of some kind of inflammatory condition affecting all of her joints and especially her hands. I had to make a quick trip from Oregon to **Calgary** to settle some affairs there. Our planned 'assignment' in **Estonia** had to be canceled.

Due to these things, we needed **a car and a place to stay in Phoenix** for the Summer (to help our son and his family). God **provided** a car (at a time when you know cars are hard to come by) and He led us to **a small place in Phoenix** used by an older Christian couple as their Winter residence. It is only minutes from our son and will only cost us the price of utilities. We **thank God for His faithfulness!** When we do His will He **always provides** what we need!

As for **our son**, his condition is **improved** but he still has a long way to go. He has been unable to work for months. His **wife** is having **surgery** today and she will be unable to search for work for another month. They and their two children **still need much prayer**.

As for **Dorothy**, most of her joints have improved but her **hands are still a big problem**. You can imagine how difficult it is to be without much of the use of your fingers, especially if, like her, you are always busy with your hands. Having to relocate down here, we must now go through the process of **finding a whole new group of doctors**, a process made more difficult by the mass migration of many people here from California and the southern border. The medical system here has been inundated, so **finding a good doctor or two is an urgent prayer request**.

As they say, 'Man's extremity is God's opportunity'. That's not just a cliché for us, we have found it to be true again and again. Every time we have trusted Him and called on Him in prayer, **He has proven Himself faithful**. I have no doubt He will demonstrate His goodness yet again, and He will do it **as you help us together in prayer**.

Yours in Christ,

*Bro. Will*
