In Mexico since 1971

June 2022

On the first weekend in June in Fresnillo, Zacatecas at Mt Calvary Baptist Church, which is the first church that pastor Manuel and I started together, there was a shooting. Three of our adult members were entering the church when a motorcycle passed by and shot them with an automatic weapon. They did not die but are in a hospital in very critical condition.

On the same weekend a pastor friend of ours across town was shot and killed on his way to church. Because of all of this it's extremely difficult to build a congregation. Please pray for the families of these individuals.

In Acuna we are experiencing up to 110 deg especially on Sunday. This past Sunday at 10 A.M. it was 109 deg, and 105 deg inside under fans. The Mexican government has issued an extreme heat warning. They advise the elderly and the children and those with disability to stay indoors. The weather burau says we may have a month of this.

We are ready to start the roof. However, our contractor has not shown up for three weeks. When we visit his home its locked up and no one knows where he is. Before he can start the roof, he must finish rebuilding the stairs.

The price increase and shortage on everything is affecting everyone. Our ministry wishes to thank all of you who pray and give, and for hanging in there with us we are not going anywhere, even if we have to meet under a shade tree at the creek.

For Souls in Mexico
